CLASS DESCRIPTIONS – JANESVILLE

30/30

This workout is structured with 30 seconds of work followed by 30 seconds of rest, giving you the perfect balance of movement and recovery to stay energized and in control.

Beginner Cycling

This class is the perfect introduction to cycling! Our experienced cycling instructor will guide you through getting the perfect fit on the bikes before taking you through an introductory cycling workout.

Bootcamp

Experience high-intensity, full-body workouts that target the major muscle groups of the upper and lower body. From circuit-style routines to creative muscle-toning exercises, each class brings its own unique challenges.

CIRCL

CIRCL Mobility is not your typical exercise program; it truly focuses on actively taking your body through movement patterns using macro and micro join movers to improve range of motion + flexibility.

Core PLUS

This class is ALWAYS geared to the ABS yet almost always incorporates other muscle groups!

Cycling

Take a ride indoors as an instructor guides the class on an all-terrain journey that will get your heart pumping and challenge you to give a little more. The focus is on proper cycle technique, body alignment, and cardio drills. Whether you're an advanced cyclist or just getting started, this workout is customizable to your athletic level.

Group Power

Group Power will blast all your muscles with a high-rep weight training workout. Using an adjustable barbell, weight plates, & body weight, Group Power combines squats, lunges, presses, and curls with functional integrated exercises.

Qigong

Qigong 气功 (pronounced chi gong) is a Chinese healing practice that combines posture, movement, breathing and focused intent. It is a subtle, gentle practice of moving and balancing our Qi (life energy) which is considered to be the vital force of life.

Let's Ride

30 heart pounding minutes climbing and sprinting all while staying in the saddle.

*Krankcycle opportunity: seated, standing, wheelchair access available.

Mat Pilates

This is a floor based class on a mat. We will work on a series of strength, flexibility, and breathing exercises, using your own body's ability and also a Pilates Ring. This class can be modified for all ages, body types, and fitness levels

On the Ball

Using the stability ball as your primary tool, you will challenge your core, improve balance and enhance overall body control through a low impact workout.

Restorative Functional Pilates

This class will work on strength, flexibility, breath work, and restorative moves for your muscles and mind. You will use your own body's resistance along with bands, small balls, foam rollers and your breath to get in tune with your inner and outer everything. We have some foam rollers available – participants are also welcome to bring their own.

Science of Stretching

This class will work through different poses with breath and time to help you with flexibility, building long, strong supporting tissues, which will help to protect your joints, improve posture, and reduce pain.

Silver Sneakers

This class focuses on strengthening muscles and increasing range of movement for daily life activities.

Summer Running

Our summer running group is a welcoming, supportive community where every pace and experience level is celebrated. Whether you're taking your very first jog, returning after a break, or training for your next big race, you'll find encouragement every step of the way.

Stand Strong TRX

This class will help you see positive effects in the areas of flexibility, strength, bone health, cognitive health and balance all while standing!

Times Up

Work until TIME is UP! Join us for a form of High Intensity Interval Training and work WITH the clock. Great for any level of fitness background.

Tough Turf

Come get TOUGH on our TURF! A form of high intensity interval training this class incorporates all aspects of fitness from strength, metabolic conditioning, bodyweight movement and agility. Are you just getting started and looking for a welcoming place to get started? This class is perfect for the seasoned athlete or the rookie.

TRX

TRX is a form of suspension training that uses body weight exercises to develop strength, balance, flexibility, and core stability simultaneously. It requires the use of the TRX Suspension Trainer, a performance training tool that leverages gravity and the user's body weight to complete the exercises while using 360 degrees of full range motion. This versatile workout puts you in control of how much you want to challenge yourself, our certified instructors will assist you with modifying and or customizing every exercise giving you the safest, most personalized workout possible.

Zumba®

Perfect for everybody and every body! We take the "work" out of workout, by mixing low-intensity and high-intensity moves for an interval-style, calorie-burning dance fitness party. Super effective? Check. Super fun? Check and check.

Zumba® Lift

Zumba + LIFT is a new 2026 fitness program developed by Beto Perez, blending high-energy dance with muscle-sculpting strength training. It features intervals of dance and, unlike Zumba Toning, uses heavier weights (5–15+ lbs) to improve endurance and muscle

YOGA DESCRIPTIONS

Chair Yoga

Level I, AOA – Set aside any preconceived ideas about Yoga and pull up a chair! No matter your age, physical abilities or experience level, adapting your practice to include a chair matches poses to your personal needs.

Flow Yoga

Using the breath as a guide, this class is one of flowing movement. We begin on the floor with gentle stretching then move into dynamic standing poses and balance work. We return to the floor for hip stretches, core work, gentle backbends and finally ending in relaxation or "Savasana."

Hatha Vinyasa Yoga

It follows the blueprint of Hatha yoga but has less structured elements to them, including fluidity and creative movement.

Hatha Yoga

Hatha Yoga is a classical yoga practice centered on connection between breath, movement and mind. The classes include breathing exercises at the start of the session; series of sun salutations that is a practice of breath synchronized movement which generates heat in the body; various dynamic and static asanas (yoga postures) with focus on body alignment and relaxation techniques for the final Savasana.

Restorative Stretch Yoga

In this class we practice deep relaxation that emphasizes the meditative aspect of yoga – the union of body and mind. Through the use of props for support, many of the postures are held almost effortlessly. When your body enters a state of relaxation, your mind can also consciously relax so your tension melts away.

Yoga R&R

Class includes 60 minutes of gentle stretching to release muscle tension, balance work & gentle core strengthening. Class ends with a 10–15 minute guided meditation to clear your mind & prepare for sleep.

Note: This class comes to you, online Sunday nights, after the YMCA closes. Registration link found on the 360 app.

Yoga Tone

Yoga is a practice that connects the body, breath, and mind. It uses physical postures, breathing exercises, and meditation to improve overall health. Yoga was developed as a spiritual practice thousands of years ago. Yoga helps bring balance into your life, reduce stress, helps to increase flexibility, strength, and clarity. This class incorporates 15 minutes of core work.
